

NEW PRODUCT SHOWCASE

NEW FITTINGS AVAILABLE

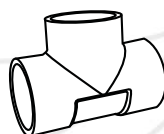

IPEX created AquaRise to be a system that saves valuable time and money on the jobsite. A simple solvent weld joining system makes AquaRise fast and easy to assemble. Compared to traditional metal systems, AquaRise proves itself a strong, highly-engineered and affordable improvement.

IPEX is pleased to announce the addition of 31 new AquaRise fittings including a complete offering in the 4" sizes, various new reducing tees and bushings in the smaller sizes, unique multi-port manifolds and a full size range of deburring tools.

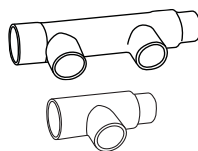

APPLICATION

- **Hot & Cold Potable Water**

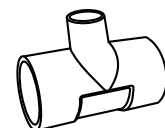

Tee Soc x Soc x Soc
